We think you will be particularly interested in attending:

Effecting Change: Individual Actions and Leadership

Thursday, February 4, 2021

2:30 p.m. - 4:30 p.m. ET

This event focuses on how individuals can lead to effect change, particularly to

increase diversity, equity, and inclusion (DEI). The discussion will begin with motivation—in this case, self-reflections on the value of diversity. We will then learn from the experiences of individual activists who have worked to increase DEI in physics, and will end with a discussion of how individuals can support organizational change.

Co-chairs:

- Ed Bertschinger, TEAM-UP & APS-IDEA
- Nadya Mason, University of Illinois at Urbana-Champaign

Speakers:

- Lance Cooper, University of Illinois, Urbana-Champaign
- Jessica Esquivel, Fermilab
- Arlene Knowles, American Institute of Physics
- Michelle Lollie, Louisiana State University
- Brian Nord, Fermilab
- Gina Quan, San Jose State University
- Brian Shuve, Harvey Mudd College
- Risa Wechsler, Stanford University
